

Akraya

# OUR NEW VENDOR SOFTWARE PLATFORM

The Art of E-Commerce

# THE PROBLEM

Due to L1 form of bidding systems, there is only certain players in market as well as disparity in rate of items needed which results in delay of the work to be done.

# INTRODUCING THE NEW SOFTWARE

Akraya is a space offering and acting as a one point for sellers and buyers to look for different components(civil,automobile,etc..)

# WHY THE CHANGE

The current scenario for Tender procurement(either through government channels or pvt.) is mainly L1 and bid based as well heavily relies on outsourcing through a single contact

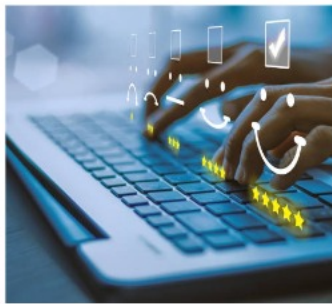

- Enhanced speed and efficiency
- Reduced costs for business
- Improved data management

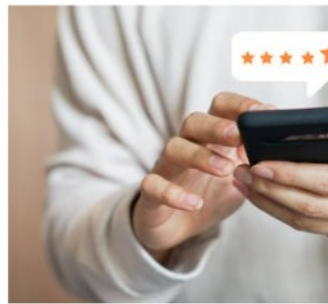

# KEY FEATURES

Data listed virtually & publicly for transparency

A review rating based system to identify foul plays

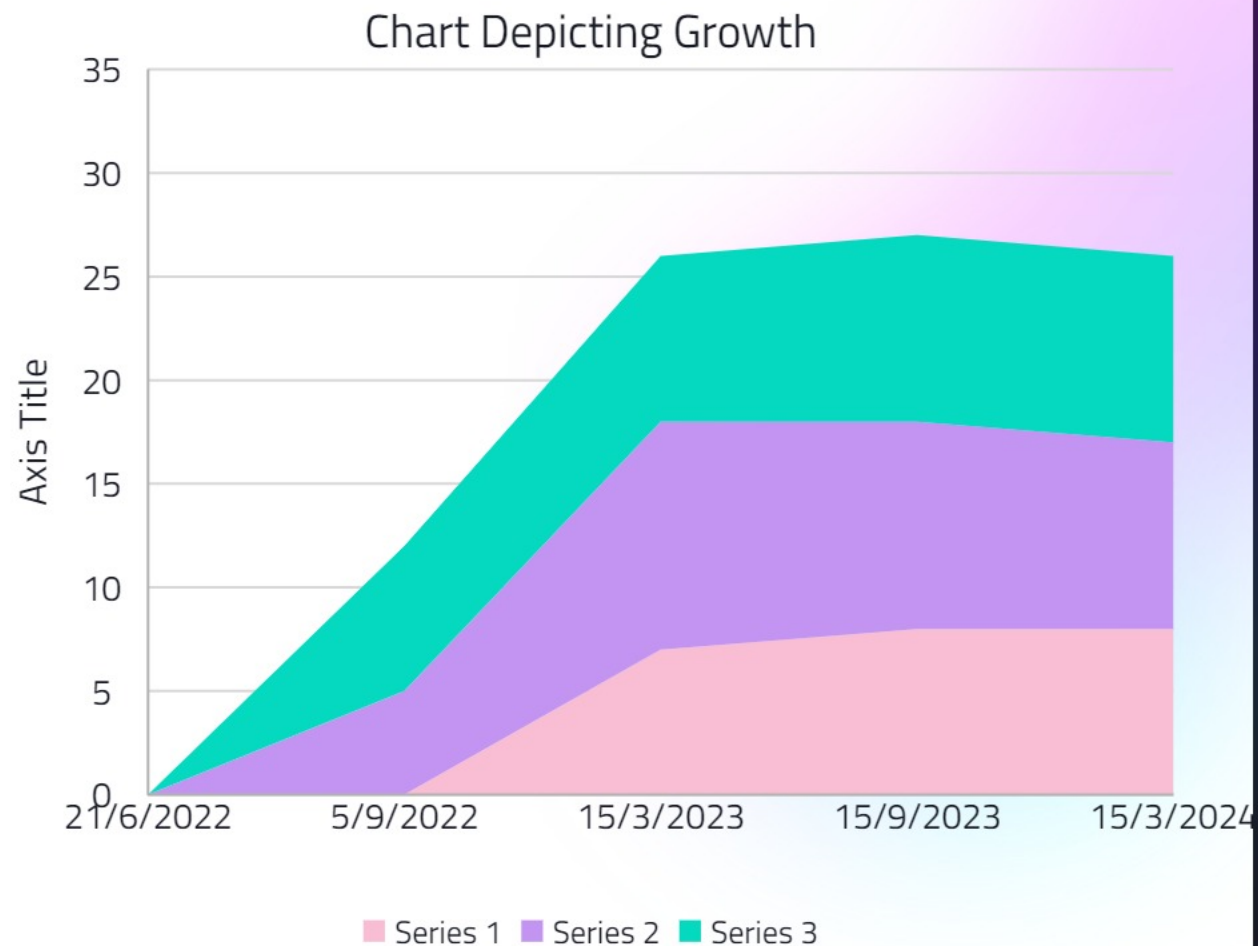

Helping provide the small local places to increase their scale.

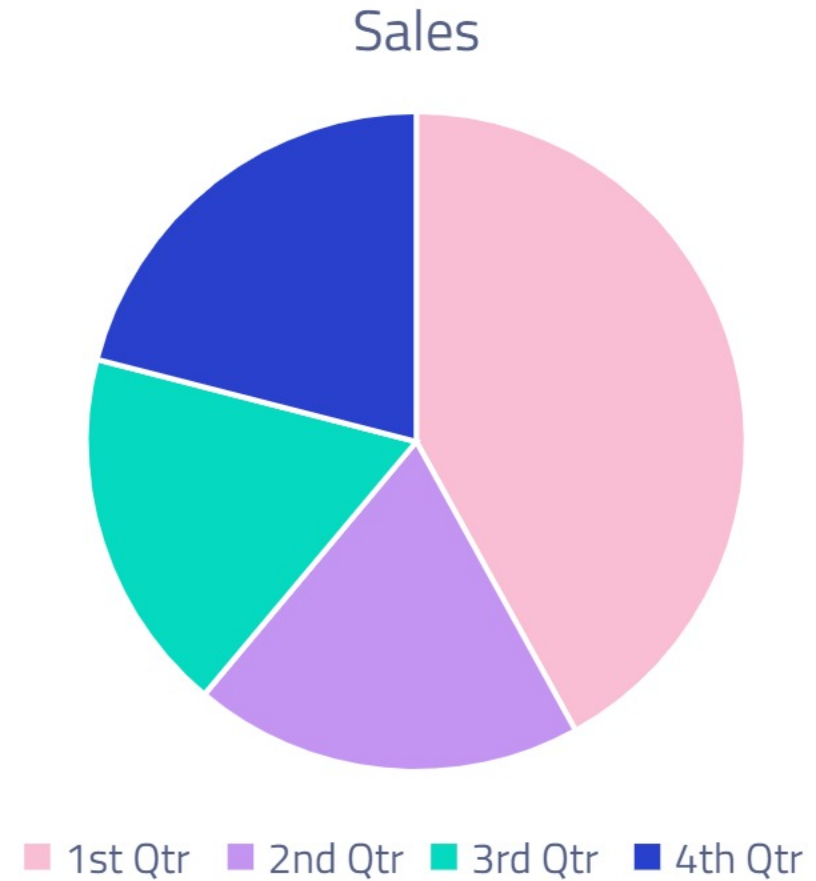

# KEY DATA

Data showing traffic and growth...

# DATA AT A GLANCE

Data Depicting Growth and Ups and Downs

# MEET THE TEAM

Akshay Kalash

Lakshmish T.G.
